

technical features of PASSION

FINISHES: the structure exterior is faced with Tecnopelle or leather while the side and the drawer fronts are matt lacquered in 33 colours or gloss lacquered in 16 colours.

The structure exterior is made from sheet metal faced with Tecnopelle or leather while the interior consists in class E1 particleboard panels. The fronts are made from lacquered multilayer panels. The varnishes used are of the water-based matt polyurethane type. The model is provided with the push-to-open mechanism.

No accessory is available.

NOTES: custom-sizing and special reductions are not available for these items.

The back panel is matt lacquered on the rear in 33 colours.

On request it can be supplied gloss lacquered in 16 colours with a surcharge amounting to € 95 for the night stand and of € 226 for the dresser.
